February 21, 2022

Dear ThinSpace Africa Partners,

This Wednesday morning, New Hope Vocational Institute (NHVI) experienced a devastating setback. The boy's dormitory caught fire and sadly burned to ashes. Thankfully, no one was hurt but we are now faced with a dire situation with needing to react immediately to create a new living arrangement for the 50 displaced orphan and vulnerable boys. Additionally, we are working to offer additional emotional and psychological support as they have lost all and any personal belongings as well

This organization serves over 50,000 people out of a population of 525,400 in the district. We have struggled financially in the last number of years – simply responding to the day to day needs of our programs. Due to this, we have not been able to create an emergency fund to respond to unexpected situations such as this current disaster. We cannot and will not leave these students unattended and homeless. **This month, we are hoping to raise \$10,000 to address the immediate needs to keep our boys housed and taken care of.** A gift from you will help us to keep the institute open and accessible to these young men.

**We appreciate any amount you can contribute. Here are some examples of what your donation can do:**

**\$40** – a mattress for one of our boys

**\$75** – all of the toiletries and clothes for one of our boys

**\$200** – bed, mattress, sheets, blankets, and a suitcase for one of our boys

This is one of the only homes that these boys have that is invested in giving them the tools to educate themselves and ultimately be self-supporting! We are transforming lives and building brighter futures - but none of that would be possible without you. **I would like to personally thank you for your continued support.**

**Thank you for considering partnering with Bringing Hope to the Family, as we continue to serve those God has called us to.**

Sincerely,

Murunga Stephen
